ABOUT

Economics graduate turned self-directed Web3 developer, specializing in on-chain analytics and DeFi tooling. Building production-grade full-stack dApps with deep Ethereum ecosystem expertise — from smart contract development (Solidity + Foundry) to decentralized data indexing (The Graph), live oracle feeds (Chainlink), and AI-powered analytics (OG Compute). Applying an economist's perspective to protocol design and incentive mechanics.

EXPERIENCE

Freelance Web3 Developer

2025 — Present

Independent · Maluku, Indonesia (Remote)

Self-directed progression from zero coding knowledge to full-stack Web3 developer. Built and deployed production DeFi tools, smart contracts, and decentralized analytics dashboards. Currently participating in ETHOnline 2026 hackathon with TronicLens — a DeFi staking intelligence cockpit.

Market Analyst & Trader

2023 — 2025

Independent · Crypto & Multi-asset Markets

Active trader across crypto, forex, and equity markets. Developed analytical frameworks combining macro analysis, technical analysis (Fibonacci, MACD, SMC/BOS/CHoCH), and on-chain data.

PROJECTS

TronicLens

ETHOnline 2026

React + Solidity + The Graph + Chainlink + OG + Reown AppKit

DeFi Staking Intelligence Cockpit — real-time whale detection, live ETH/USD oracle, on-chain governance (proposals, voting, timelock execution), decentralized AI insights (OG Compute TEE verified), on-chain data archiving, smart alerts, and wallet connect via Reown AppKit.

Bachelor of Development Economics

2021 — 2025

Universitas Dokter Husni Ingratubun (UNINGRAT) · Tual, Indonesia

ACHIEVEMENTS

- ETHOnline 2026 — Accepted participant, ETHGlobal hackathon (Sep 4–16, 2026). Building TronicLens dengan OG Network, The Graph, dan Chainlink integrations.
- Foundry Testing — 107/107 tests passing, 98% coverage (StakingContract + GovernanceContract + StakingGovernance) dengan CI/CD green on GitHub Actions.
- The Graph Subgraph — Deployed dan 100% synced custom subgraph (tronic-staking v0.0.2) on Sepolia.
- On-chain Governance — Full governance system deployed on Sepolia — create proposals, vote (Yes/No/Abstain), execute via timelock. Integrated with Reown AppKit wallet connect.
- OG Network Integration — OG Storage + OG Compute TEE-verified AI dalam satu DeFi dashboard.
